

## PACK-SIZE: 24 REACTIONS

<b>Product Name:</b>	QuantiVirus™ SARS-CoV-2 Multiplex Test Kit
<b>Catalog Number – 24 Reactions</b>	DC-11-0017

Name of Component	Part #	Description	Pack Size: 24 reactions kit	Label Volume for each vial	Storage Temp
<b>5x Primer/Probe Mix (Multiplex)</b>	1009072	Primer/probe Mix (Orf1ab & Human Rnase P gene primers and probes)	1 vial	48 µL	-25°C to -15°C
<b>One Step qRT-PCR Master Mix</b>	1009082	1-step Multiplex Master mix	1 vial	60 µL	25°C to -15°C
<b>Positive Control</b>	1009102	Synthetic DNA templates (Positive control PC) for Orf1ab	1 vial	10 µL	25°C to -15°C
<b>Extraction Control (EC)</b>	1009092	Template material with target sequences of human RNase P gene	1 vial	40 µL	25°C to -15°C*
<b>No Template Control</b>	1009112	Nuclease-Free Water	1 vial	50 µL	25°C to -15°C

\*Note: EC can be stored at 2 - 8°C after first use and between uses.

### HMIS

<b>Health</b>	<b>0</b>
<b>Flammability</b>	<b>0</b>
<b>Reactivity</b>	<b>0</b>

The product contains no substances which at their given concentration, are considered to be hazardous to health or environment.

## PACK-SIZE: 48 REACTIONS

<b>Product Name:</b>	QuantiVirus™ SARS-CoV-2 Multiplex Test Kit
<b>Catalog Number – 48 Reactions</b>	DC-11-0018

Name of Component	Part #	Description	Pack Size: 48 reactions kit	Label Volume for each vial	Storage Temp
<b>5x Primer/Probe Mix (Multiplex)</b>	1009073	Primer/probe Mix (Orf1ab & Human Rnase P gene primers and probes)	1 vial	96 µL	25°C to -15°C
<b>One Step qRT-PCR Master Mix</b>	1009083	1-step Multiplex Master mix	1 vial	120 µL	25°C to -15°C
<b>Positive Control</b>	1009103	Synthetic DNA templates (Positive control PC) for Orf1ab	1 vial	20 µL	25°C to -15°C
<b>Extraction Control (EC)</b>	1009093	Template material with target sequences of human RNase P gene	1 vial	60 µL	25°C to -15°C*
<b>No Template Control</b>	1009113	Nuclease-Free Water	1 vial	100 µL	25°C to -15°C

\*Note: EC can be stored at 2 - 8°C after first use and between uses.

### HMIS

<b>Reactivity</b>	<b>0</b>

The product contains no substances which at their given concentration, are considered to be hazardous to health or environment.

## PACK-SIZE: 480 REACTIONS

<b>Product Name:</b>	QuantiVirus™ SARS-CoV-2 Multiplex Test Kit
<b>Catalog Number – 480 Reactions</b>	DC-11-0019

Name of Component	Part #	Description	Pack Size: 480 reactions kit	Label Volume for each vial	Storage Temp
<b>5x Primer/ Probe Mix (Multiplex)</b>	1009074	Primer/probe Mix (Orf1ab & Human Rnase P gene primers and probes)	2 vials	480 µL	-25°C to -15°C
<b>One Step qRT-PCR Master Mix</b>	1009084	1-step Multiplex Master mix	2 vials	600 µL	-25°C to -15°C
<b>Positive Controls</b>	1009104	Syntetic DNA templates (Positive control PC) for Orf1ab	1 vial	100 µL	-25°C to -15°C
<b>Extraction Control (EC)</b>	1009094	Template material with target sequences of human RNase P gene	1 vial	100 µL	-25°C to -15°C*
<b>No Template Control</b>	1009114	Nuclease-Free Water	1 vial	500 µL	-25°C to -15°C

\*Note: EC can be stored at 2 - 8°C after first use and between uses.
